Select Poetry.

Nature's Music.

There's sweetness in the opening flower.
There's beauty in the rose;
A melody in the evening's breeze
That though the foliage blows;
There's music in the warbling song,
At matin's pleasant hour,
When pouring forth its notes of joy
From some secluded bower.

What beauty 'tis when Phœbus gilds
The hills with colors bright,
What majesty when jewels deck
The firmament of night,—
Then streams and lake thro' shading trees,
With silvery light do gleam,
As ripling waves reflect the glance
Of Luna's beauteous beam.

There's music on the heaving main,
When angry waves do rise—
When o'er the crossed billows foam,
The seas gull swiftly flies;
Or rising high on pinions light,
He screams amid the roar,
As breakers dash in maddened glee
Like thunders on the shore.

There is beauty in all nature,
Sublimity and might—
When darkness dwells upon the earth,
And reigns supreme at night.
When tempests rock the forest pine,
When echoing thunders roll,
When vivid lightning's blinding flash
Brings terror to the soul.

Oh! let us read in nature's book,
Of heaven's bounteous love,
Of all the gifts God showers us,
In wisdom from above,
And in our hearts emotion, then,
Of gratitude shall rise,
And thanks be rendered unto Him
Who made the earth and skies.

Do They Miss Me at Home?

Do they miss me at home?—do they miss me?
'Twould be an assurance most dear
To know that my name was forgotten,
As though I had never been there;

To know that the tailor and landlord,
And the banks where my paper is due,
And hosts that I cannot now mention,
Had banished me quite from their view.

Do they miss me at home?—do they miss me
When market for money is tight,
And collectors in haste are pursuing
Their debtors by day and by night?

Do the friends who once loaned me a "fifty,"
And the other who loaned me a "ten,"
Heave a sigh of regret as they miss me,
And wish they could see me again?

Do they miss me at home?—do they miss me
Where no longer I'm seen upon 'Change?
And do those who were wont to assist me,
Say, "His conduct's infernally strange?"

Does the Shylock who loaned me his money,
To bear me to regions unknown,
Look in vain for occasion to dun me,
And wish I again were at home?

Do they miss me at home?—do they miss me?
'Twould be an assurance most dear
To know that my name was forgotten,
As though I had never been there.

But I know that my memory lingers
Around the dear place as I roam,
And while I'm my wits and my creepers,
They'll miss me—they'll miss me at home!

Select Miscellany.

A Modest Young Man.

We love a modest, unassuming young man, wherever we find him—in the counting room or law office—at the bellows or crank—at the roll-stand or type case—on a calm-bank or on the pulpit. Among a world of brass and bold impudence, he stands forth an honor to himself; showing to others that he at least has had a good bringing up, and knows what belongs to good manners. Ask him a question, and he will not look cross enough to bite you. If you are looking for anything, he will take pains to find it for you if he can.

When in company with others, he does not usurp all the conversation, and endeavor to call the attention of others to himself, by boisterous language. He listens attentively to his seniors, and modestly advances his opinions. We love such a man—we do sincerely—and his company we highly prize. If he meets you in the street, he pleasantly bows, and bids you good morning. You do not find him standing at the corners, using profane words, or see him standing at the entrance of churches on the Sabbath. He quietly enters his pew and takes his seat without a flourish. He goes to hear, not merely to see. Such young men there are in the country and in the city. We often see them. You will find them in some of your printing offices, work-shops, and other places, where to earn one's living is honorable. When they came upon the stage of active life, they must succeed—it cannot be otherwise. We would give more for a modest, unassuming man, for all the practical business of life, than for a score of brassy, impudent rascals, who are not worth the bread they keep from moulding.

☞ A certain witty wan, fond of whist, once heard a child cry when sitting down to his game. "I always love to hear children cry," he remarked. "Why?" asked those about him. "Because," says the witty man, "they are sent to bed then."

The "Try Company."

A gentleman who was riding in the cars, noticed a bright little fellow, between five and six years of age, sitting with his father and mother, and engaged in the attempt to unloose the knot of the string that bound a small parcel. The knot had become well compacted, and the child's tiny fingers seemed to make no impression thereon. The patient earnestness of the little fellow was contrasted with the apparent indifference of his parents, who looked on, but made no attempt to assist him.—At last the gentleman, whose sympathies with children were warm, could bear the sight no longer; so, partly, to help the child, and partly to rebuke the parents, he took out his knife and handing it to the boy, said:—

"Here, my little fellow, try the virtue of a sharp blade. You can not untie the knot!"

Something to his surprise, the knife was not taken; but instead, the child answered with a smile—

"Please, sir, father don't allow me to say I can't; belong to the "Try Company.'"

"Indeed!" said the gentleman, as he drew back his hand. "I never heard of that company before."

"Oh, I've always belonged to it. Have I not, father?" and the child turned, with an expression of loving confidence in his face, towards his father.

"He's a worthy member of that excellent association, sir," remarked the father, now speaking to the gentleman, and smiling in a pleasant way.

"Ah, I understand you!" Light was breaking in upon his mind. "This is a part of your discipline. You never permit your little boy to say I can't."

"But, instead, I'll try, sir."

"Excellent," said the gentleman.—"Excellent! Here is the way that men are made. It is the everlasting *I can't*, that is dwarfing the energies of thousands upon thousands all over the land. A feeble effort is made to overcome some difficulty, and then the arms fall wearily, and the task is abandoned."

"And who is most to blame for this?" was inquired.

"Parents," was the unhesitating reply. "Parents who fail to cultivate patience and perseverance in their children. Parents who carry them when they should let them walk, even though their feet may be weary. I see it all as clear as light, and see my own fault at the same time.—I cut the knot of difficulty for my children every day, instead of requiring them to loosen it themselves. But, sir, they shall join the "Try Company" after this. I'll have no more knot cutting in my house."

How is it with you, reader, child or man? Are you a member of the "Try Company?" If not, and you have any ambition to be something more than a drone in the hive, join it at once; and from this time forth never let the words "I can't" find a place on your lips.

The wonders of Light.

Not only does the light fly from the grand "ruler of the day," whith a velocity which is a million and a half times greater than the speed of a cannon ball, but it darts from every reflective surface with a like velocity, and reaches the tender structure of the eye so gently, that, as it falls upon the little curtain of nerves which is there spread to receive it, it imparts, the most pleasing sensation, and tells its story of the outer world with a minuteness of detail and a holiness of truth. Philosophers once sought to weigh the sunbeam. They constructed a most delicate balance, and suddenly let in upon it a beam of light; the leaver of the balance was so delicately hung that the fluttering of a fly would have disturbed it.—Everything prepared, and grave men took their places, and with keen eyes watched the result. The sunbeam that was to decide the experiment had left the sun eight minutes prior, to pass the ordeal. It had flown through ninety-five millions of miles of space in that short measure of time, and it shot upon the balance with unabated velocity. But the lever moved not; and the philosophers were mute.

A CHILD'S SYMPATHY.—A child's eyes—those clear wells of undefiled thought—what on earth can be more beautiful? Full of hope, love and curiosity, they meet your own. In prayer, how earnest, in joy, how sparkling, in sympathy, how tender. The man who never tried the companionship of a little child, has carelessly passed by one of the greatest pleasures of life, as one passes a rare flower, without plucking it or knowing its value. A child cannot understand you, you think; speak to it of the holy things of your religion, of your grief for the loss of a friend, of your love for some one you fear will not love in return; it will take, it is true, no measure or sounding of your thought; it will not judge how much you should believe whether your grief is rational in proportion to your loss—whether you are worthy or fit to attract the love which you seek—but its whole soul will incline to yours, and engraft itself, as it were, on the feeling for the hour.

The Terrible Heat in California.

The Santa Barbara *Gazette* of the 22d of June says:

Friday, the 17th June, will be long remembered by the inhabitants of Santa Barbara, from the burning, blasting heat experienced that day, and the effects thereof. Indeed, it is said that for the space of thirty years, nothing in comparison has been felt in this country, and we doubt, in any other. The sun rose like a ball of fire on that day; but though quite warm, no inconvenience was caused thereby until two o'clock, P. M, when suddenly a blast of heated air swept through our streets, quickly followed by others, and shortly afterwards the atmosphere became so intensely heated that no human being could withstand its force—all sought their dwellings, and had to shut the doors and windows, and remain for hours confined to their dwellings. The effects of such intense and unparalleled heat was demonstrated by the death of calves, rabbits, birds, &c. The trees were all blasted, and the fruit, such as pears and apples, litterally roasted on the trees ere they fell to the ground, and the same as if they had been cast on live coals.

But stange to say, they were only burned on one side—the direction whence came the wind. All kinds of metal became so heated, that for hours nothing of the kind could be touched with the naked hands. The thermometer rose nearly to fever heat—in the shade. Near an open door, and during the prevalence of this properly called sirocco, the streets were filled with impenetrable clouds of dust, or pulverized clay. Speculation has been rife since to ascertain the cause of this terrible phenomenon; but though we have heard of many plausable theories thereon, we have not been fully convinced yet: however that might be, we see its terrible effects all round us, in blighted trees, ruined gardens, blasted fruit, and almost a general destruction of the vegetable kingdom here. We hope we will never see the like again.

Since writing the above we regret to announce, that the sirocco was not, as we hoped, local; but the Los Angelos was visited the same day by similar blasts, and more intense, if possible, than were experienced here; and that not only the fruit trees are injured, but the vineyards are reported as nearly all destroyed. The general opinion, that the cause is fire in the mountains is now abandoned; and the *belief is that there has been a volcanic eruption in the Southern portion of this State.*

Can Any One Tell?

Can any one tell how it is, that during these hard times, when every merchant, manufacturer and mechanic is doing his utmost to keep his nose above water, our numerous drinking saloons are well sustained, and even new ones starting?

Can any one tell why men, who absolutely cannot pay small bills, can always find plenty of money to buy liquor and treat when happening among friends?

Can any one tell how young men who dodge ther washer woman and are always behind with their landlords, can play billiards day and night, and are always ready for a game of "poker" or "seven up?"

Can any one tell how lawyers who have no cases, and doctors who have no practice, manage to make the ends meet, or meet the ends?

Can any one tell how men live and support their families, who have no income and do not work, and why others who are industrious, and constantly employed half starve?

Can any one tell how it is that a man who is too poor to pay three cents a week for a good weekly paper, is able to pay fifteen cents a day for tobacco and cigars, to say nothing of an occasional drink?

Can any one tell what interest we have in asking these questions which we know no one can answer?

CAUGHT NAPPING.—A Scotchman and an Irishman were sleeping together. The weather being rather warm, the Scotchman, in his sleep, put his leg out of bed. A traveller, in passing the room door, saw him in this situation, and having a mind for a frolic, gently fixed a spur on sawney's heel, who, drawing his leg into bed, so disturbed his companion that he exclaimed:—

"Arrah, honey, have care of your great toe, for you have forgot to cut your nails, I believe."

The Scotchman being sound asleep, still kept on scratching Pat, till his patience being exhausted, he succeeded in rousing Sawney, who not a little surprised in finding the spur on his heel, loudly exclaimed:

"Hell dum the dafe chief of an 'ostler, he's ta'en my boots off last night, and left on the spur."

☞ "That's a fine strain," said one gentleman to another, alluding to the tones of a singer at a concert the other evening.

"Yes," said the countryman who sat near, "but if he strains much more he will bust.

Mixing up the Babies.

The Waterville (Cal.) *Journal* contains the following:

"Some time ago there was a dancing party given "up north;" most of the ladies present had little babies, whose noisy perversity required too much attention to permit the mothers to enjoy the dance.—A number of gallant young men volunteered to watch the young ones while the parents indulged in a "break-down." No sooner had the women left the babies in charge of the mischievous devils, than they stripped the babies, changed their clothes, giving to one the apparel of another. The dance over, it was time to go home, and the mothers hurriedly took each a baby in the dress of her own, and started some to their homes, ten or fifteen miles off, and were far on their way before day-light. But the day following there was a prodigious row in that settlement—mothers discovered that a single day changed the sex of their babies; observations disclosed startling physiological phenomena; and then commenced some of the tallest female pedestrianism. Living miles apart; it required two days to unmix the babies, and as many months to restore the women to their naturally sweet dispositions. To this day it is unsafe for any of the baby mixers to venture within the territory."

Waggery.

Some time ago, one Sunday, we wended our way to one of our churches, and instead of a sermon heard an address upon some missionary or other benevolent subject. After the address was concluded, two brethren were sent round with the basket for contributions. Parson L., who was one of the basket bearers, taking the side upon which we set. Immediately in front, and upon the next seat, negligently reclined our friend Bill H., a gentleman of infinite humor and full of dry jokes.—Parson L. extended the basket to Bill, and slowly shook his head.

"Come, William, give us something," said the Parson.

"Can't do it," replied Bill.

"Why not? Is not the cause a good one?"

"Yes; but I am not able to give anything!"

"Poh! Poh! I know better; you must give a better reason than that."

"Well, I owe too much money—I must be just before I am generous, you know."

"But William, you owe God a larger debt than you owe any one else."

"That's true, Parson; but then he ain't pushing me like the balance of my creditors!"

The Parson's face got into rather a curious condition, and he passed on.

☞ Quimboy one morning perceived that the milk he was pouring into his coffee was none of the richest. On this he said to the hostess.

"Haven't you any milk that is more cheerful than this?"

"What do you mean by that," replied she.

"Why this milk seems to have the blues," was his ready retort.

☞ "I wish I was a ghost, blamed if I don't," said a poor covy, the other night, as he was soliloquizing in the cold. "They goes wherever they please, toll free; they don't owe nobody nothin', and that's comfort. Who ever heard tell of a man who had a bill against a ghost. Nobody. They never buy hats and vitals, nor has to saw wood nor rum arrants, as I do."

☞ Some papers have a queer way of telling wholesome truths. Thus, one tells its readers that it is extremely unwholesome to fall in love with another man's wife. A respectable citizen "died" the first year on account of an affection of this kind. The last time he was seen he was looking *into* the mouth of a cocked pistol.

☞ The philosophers tell us that the rain which falls from the clouds, makes a component part of whatever grows upon the earth. Thus, in a passing shower, we may be unconsciously pelted with the component parts of bulls, sheep, poets, patriots and editors.

☞ It is strange, but every woman's husband is the very worst that ever lived, until he is attacked, and then, "dear fellow," he is the very best.

☞ What is that which every one can divide, but no one can see where it has been divided? Water.

☞ We may as well attempt to bring pleasure out of pain, as to unite indulgence in sin with the enjoyment of happiness.

☞ He who seldom thinks of heaven is not likely to get there; as the way to hit a mark is to keep the eye fixed upon it.

☞ Many facts go to prove, or at least to render it probable, that there is nothing new which has once been old.

METHODISM AND SLAVERY.—A number of clergymen of the Methodist Episcopal denomination, have published a circular to the members of that Church, recounting the history of the church as connected with slavery, and stating that they "feel that it is our bounden duty to secure, if possible, at the next session of our General Conference, which takes place at Buffalo, N. Y., May 1st, 1860, a disciplinary rule, by which all slaveholders shall be declared ineligible to membership in the Methodist Episcopal Church. Slavery is deeply cursing our nation, and its malign influence is not less deadly upon the Church of God; and we feel it to be our duty as much as in us lieth, to remove this curse, and to wipe away this reproach from the otherwise pure escutcheons of our common Methodism." They desire that memorials on the subject may be sent to the Conference. We do hope that the Conference will settle this matter fully by emphatically declaring slaveholders ineligible to membership in the M. E. Church, or in favor of their admission, as we think either would be preferable to and productive of as little evil as the constant agitation of the subject as it now stands.

THE WASHINGTON NATIONAL MONUMENT.—The Post Office Department is to be made use of for raising funds to complete the Washington Monument at Washington City. There can be no objection to this, for there is no other mode of reaching the people in every part of the Union. Contribution boxes at all the Post Offices, with the receipts remitted monthly, should keep the corporation in funds to go on steadily with the work till it is finished. It is a disgrace to the country that the monument should be left so long in its present ugly and imperfect condition; and though it is not very creditable to have to resort to novel and extraordinary modes of raising money, it is much better to do that than to have the work neglected or abandoned, to stand as a permanent reproach and disgrace to the country. So let the boxes be opened at the Post Offices, and let everybody that visits them drop in a trifle as he passes.

NEWSPAPERS.—We have received several copies of a new paper styled the *State Journal*, published at Philadelphia. It is a well gotten up paper of 8 pages, ordinary newspaper size, and it is edited with much spirit. It supports the nominees of the Peoples' Party, and promises to be a valuable auxilliary in the Peoples' ranks.

The Ebensburg *Democrat & Sentinel* was sold at Sheriffs' sale a short time since to Daniel Zahn, Esq., the present publisher, for $607. Carl Murray continues as editor and its political complexion will not be changed.

The Johnstown *Demokrat* (German paper) was also sold at Sheriffs' sale, a few days since. It was purchased by a party of gentlemen of Johnstown, who purpose enlarging and otherwise improving it.

SUED FOR LIBEL.—We understand that Thos. S. Reid, late editor of the Blairsville *True American*, has sued James F. Campbell, editor of the Blairsville *Record*, for libel, based upon an editorial which appeared in the *Record* a couple of weeks since. We are somewhat surprised at this action on the part of Reid, when we remember that the *True American*, under his charge, teemed with articles the most unseemly and libelous in regard to Campbell, and we think if either had a right to appeal to law it was Campbell and not Reid. When editors "pitch in" after the style in which the Blairsville editors have done for some time past, there is no excuse for going to law to bolster up reputations when they can not sustain them with the pen.

The Late Elections.

Gov. Isham G. Harris (Democrat) of Tennessee is, according to the latest accounts, re-elected by a majority of 3,000. In the IXth District the Opposition have surely chosen EMERSON ETHERIDGE to Congress. If they have also elected their candidate in the 1st District, which is probable, they will have seven out of ten Representatives—a gain of four. Both branches of the Legislature are Democratic by small majorities.

The latest returns from the Kentucky election indicate that the ten Representatives in Congress to which the State is entitled, will be about equally divided between the Democrats and the Opposition. The Democrats have about thirty or forty on joint ballot in the Legislature, and they have elected their candidates for Governor and other State offices by about seven thousand majority.

A dispatch from Houston, Texas, via New Orleans on the 8th, says that Sam Houston is certainly elected Governor.

The result of the Congressional elections in the above States leaves no doubt of the fact that the democratic party will be in a minority in the next House of Representatives. The Southern "opposition" will probably hold the balance of power, as the republicans, as a party, will also be unable to command a majority.

☞ The "Herald of Truth," a new religious weekly, published in the City of New York, and edited by Rev. John W. Major, has been received at our office.—Its avowed object is to disseminate the views of the leading Divines of the various Evangelical denominations as expressed in their sermons, and to *perpetuate* a movement made last winter, in the City, and felt throughout the country, (by means of gratuitous preaching in the Academy of Music, and other large buildings,) *to make the Gospel accessible to all*. Sermons are, therefore, the great feature of the paper, and four or five are to appear in each number. In the copy before us are five—two by the Rev. C. H. Spurgeon of the Baptist Church of London, said to have been preached to audiences of about ten thousand persons; one by the Rev. Dr. Bethune, of the Reformed Dutch Church of Brooklyn, N. Y.; one by the Rev. Dr. McClintock, of the Methodist Episcopal Church of New York City; and one by the Rev. Lemuel Haynes, (deceased,) formerly of the Congregational Church, of Rutland, Vt. The Herald of Truth is a large quarto, and is afforded for $2.00 per annum, $1.00 for 6 mos., single copies 5 cts. It can be obtained of the News Agents, anywhere, if application is made to them, or where there are no News Agents, persons wishing to subscribe, can enclose the price, and address as follows: "Herald of Truth," No. 130 Nassau Street, New York, or subscriptions for it will be received at our office.

A MAMMOTH STEAMSHIP PROPOSED.—Captain Randall of Philadelphia proposes to build, by stock subscription, a steamer four hundred feet long, and forty-eight feet beam, with accommodations for 3,000 passengers, and 3,000 tons of freight. This ship will have iron diagonal braces around the frame, be iron bound inside the planking, and iron bulkheads dividing the ship in seven compartments. The propelling power will be two marine engines of 3500 horse power, and two sets of wheels. The ship will draw but thirteen feet of water, and the projector believes that one constructed after his plans, would cross the ocean in seven days. The cost of the vessel is estimated at $500,000. Captain Randall has had much experience in steamships, both on the Lakes and California.

☞ The Kansas Constitutional Convention has broken up in a row; the Democratic members seceding, and refusing to sign the State Constitution adopted by the convention. The quarrel seems to have arisen from a bitter personal controversy, in which charges of bribery were freely handled. The immediate occasion of the trouble was the question of locating the State capital. The contest lay between the cities of Lawrence and Topeka. The latter was chosen, and it was upon this choice that charges of bribery and corruption were founded. The Democrats finally seceded altogether.

☞ It is reported that a new paper is about to be started in Ebensburg, Cambria county, in opposition to the Johnstown *Tribune*, by the disappointed aspirants for Senatorial honors in the Peoples' Party. It is generally an uphill business to start guerrilla sheets in any party, but all experience tends to prove that they will stop themselves. Brother Swank, of the *Tribune*, who appears to be the eyesore of the dissatisfied, need have no apprehensions of being slaughtered, as there is always a calm after a storm.

Senatorial Conference.

Agreeably to previous notice, the Senatorial Conference of the Peoples' Party of the Senatorial District composed of the counties of Blair, Cambria and Clearfield, met at the National Hotel, in the Borough of Tyrone, on Tuesday, August 9th, 1859.

The following Conferees presented their credentials and took their seats, viz:—

Blair—Joseph Higgins, Caleb Guyer, Geo. W. Patton.

Cambria—Evan Roberts, John Williams, A. A. Barber.

Clearfield—S. B. Row, John McQuilkin, J. B. McEnally.

On motion, Hon. E. Roberts, of Cambria was chosen Chairman and S. B. Row, of Clearfield, and Geo. W. Patton, of Blair, Secretaries.

On motion, *Resolved*, That this Conference now go into nomination for a candidate for Senator.

Jos. Higgins nominated Lewis W. Hall.
John Williams " Jacob M. Campbell.
S. B. Row " Michael A. Frank.

On motion, *Resolved*, That the vote be taken by counties, in alphabetical order.

On motion, *Resolved*, That the Conference proceed to ballot for a candidate for Senator.

A ballot was then had which resulted as follows:—

L. W. Hall 3, J. M. Campbell 3, M. A. Frank 3.

On motion the Conference adjourned until 2 o'clock P. M.

Conference met agreeably to adjournment and proceeded to ballot with the following result:

L. W. Hall having received a majority of the votes cast was declared the nominee of the party.

On motion the nomination was made unanimous.

On motion, the Chairman was authorized to appoint a committee consisting of one delegate from each county to inform Mr. Hall of his nomination, whereupon Messrs. McEnally, Higgins and Williams were appointed said committee.

The committee having retired a short time, returned with Mr. Hall, who, after being introduced to the Conference, accepted the nomination in a neat address.

On motion, *Resolved*, That we will use all fair and honorable means to secure the election of L. W. Hall, our nominee, and recommend him to the hearty support of the Peoples' Party of this Senatorial district.

On motion adjourned.

MR. CHOATE.—Two or three years ago, during a season of illness, Mr. Choate was visited by one of his friends, who urged upon him the importance of paying more attention to his health. "Sir," said the visitor, "you must go away: if you continue your professional labors thus, you will certainly undermine your constitution."—Mr. Choate looked up, and with that grave irony and peculiar twinkle of the eye which were so marked and indescribable when he jested, said: "Sir, the constitution was destroyed long ago, I am now living under the by-laws."—*Boston Courier.*

☞ General Louis Morris, conspicuous in the Italian war, when a young Captain in Algiers, had a hard hand to hand fight with a famous shiek. On both sides the young cavaliers stopped to witness the combat; Morris broke his sword, clinched with the enemy, and both fell from their horses without losing their hold, and rolled in the dust, the Arab endeavoring to reach his knife, and Morris trying to get hold of his pistol. After a deadly struggle, the Arab remained in the dust, and the Captain of Chasseurs, re-mounting charged at the head of his men.

HORSES FOR NAPOLEON.—The handsome pair of jet black horses, lately owned by Mr. Sanderson, of Somerville, N. J., which attracted so much attention at the State Fair, have been sold to the Emperor Napoleon for $4,000. For the last ten years these horses have taken all the prizes for carriage horses in the State; they were bought to match a team of bays bought in this country. The horses sailed for France last week.

☞ The State Seal of Oregon is an escutcheon supported by thirty-three stars with the "Union" inscribed upon it. In relief, mountains, an elk, a wagon, the Pacific Ocean, on which there is a British man-of-war departing and an American steamer arriving. The second quartering with a sheaf, plow and pickaxe. Crest—the American Eagle. Legend—State of Oregon.

GREAT SALARY.—The Hon. Delazon Smith, ex-Senator from Oregon, has been dropped by the Legislature of that prococious State. Delazon sported the Senatorial robes just seventeen days, for which valuable services he pocketed the compensation of $10,000, of which $7,000 was for mileage.

☞ Twelve hundred and seventy-five dollars were stolen from the ticket wagon of Van Amburgh & Co's Menagerie, at Moorsville, Morgan county, Mo., on the night of the 2d inst. Manager Frost offers a reward of $500 for the recovery of the money and the apprehension of the thief.

☞ It is stated that Mrs. D. E. Sickles, with her father, mother, and child, will take up a residence shortly in Italy; and that in case of Mr. Sickles being ousted from his seat in Congress by the contestant, Williamson, he will join the family in Italy himself.

TERRIBLE INDIAN ENGAGEMENT.—From our friend J. Jewitt Wilcox, clerk of the steamer Omaha, just down from Sioux City, says the St. Joseph's *Journal* of the 30th, we learn that a bloody and sanguinary butchery came off about one hundred miles out in the interior of Nebraska and Decater, between the Omaha and Brule Sioux Indians on the 28d inst. A band of fifty Omahas, men, women and children, were returning from a hunting expedition, and while encamped were stealthily attacked in the night by a large band of the Brule Sioux. The Omahas had seventeen killed, seventeen wounded, and two prisoners taken, and succeeded in killing and securing five scalps of their enemies. The survivors of the massacre arrived at their reserve near Decator, briaging the dead and wounded, on the day the Omaha passed up. Mr. Wilcox states that the Siouxs spared neither age nor sex. He saw a dead infant with a frightful wound across its forehead, killed in the engagement. The dead and wounded lying in the bottom presented a terrible spectacle. The lamentation of the friends and relatives, with faces blacked, and in deep mourning, were truly heart-rending. The wounded are in charge of the Agent, who endeavored to ameliorate their sufferings as much as possible.

A ONE SIDED DUEL.—The Richmond correspondent of the Petersburg *Express* says: "A duello of a novel character took place at the residence of Robert Hancock, Esq., Shockoe Hill, a day or two since, during the absence of that gentleman from home. Two men servants being engaged in a quarrel, in which both were much abused, they were resolved to heal their wounded honor by a resort to the duello. There was but one pistol accessible to the combatants—an old horse-man's side arm—but they got out of the dilemma in the following remarkable manner: The weapon was heavily charged, the distance (ten paces) marked off, and the privilege of the first fire decided by the toss up of a cent. The parties then took their position, and the fortunate winner of the first fire asked his antagonist if he was ready. Receiving an affirmative response, the pistol-holder blazed away," striking his opponent on the forehead, the ball tearing up the skin and glancing off.—Had it struck him plumply instant death would have probably ensued. As it was, the defenceless darkey was severely stunned, and fell to the floor.

A MIDNIGHT FUNERAL.—One of the most solemn sights for a person to witness, says the Boston *Herald*, is a funeral at midnight. On Sunday afternoon Mr. Daniel H. Maine, a member of the Chelsea City Council, died at his residence on Central avenue. The disease which caused his death was of such a nature that his body had to be interred at midnight.—While the clock was striking the hour of twelve, and the people had retired to their rest from the labors of the day, with everything still and calm beneath the broad canopy of heaven, two persons entered the house of mourning and remove the remains of a brother to its final resting place in the cemetery. It was a sad and mournful sight for the widow and children of the deceased, as no friends, relations or neighbors could be present to condole with them in the hour of affliction.

PROGRESS OF RUSSIA.—It has been very evident, since the close of the last Russian war, that this country has turned much attention to the means for improving its manufactures, agriculture, commerce, and its railroads, which has given rise to an enormous demand for building materials, and bricks in particular. Mr. Henry Clayton, of the Atlas works, London, the eminent maker of brick machinery, obtained, some time since, special privileges from the Russian Government for the introduction of his well known and successful machinery, and his system of brick manufacture throughout. For the establishment of extensive brick manufactories in St. Petersburg and Moscow, Mr. Clayton has during this month sent out a staff of first-class men to superintend the erection of the buildings and machinery requisite for those works, one of which is to be capable of producing at least 10,000,000 per annum.

"VERY TRUE!"—A correspondent of the New York *Evening Daybook* thus gives her opinion of the Pennsylvania Railroad, in an agreeable letter, in which he notices a number of notable points of Pennsylvania locality:

The road is one of the most permanent in the world, having been constructed at great expense; the iron is heavy, and of the most approved patterns. Cross ties larger than we have seen in any road, all laid in broken stone, which render the roadway firm, furnishes excellent drainage, and at the same time is a perfect preventative against the clouds of dust, a source of great annoyance on many roads in America. All things considered, we regard the Pennsylvania Central, as the Railroad *par excellence* of the country. A ride over it is a great treat to the lover of fine scenery, or the traveler who consults comfort.

LATEST FROM KOSSUTH.—Mr. John M'Adam, of Glasgow, writes to the North British *Daily Mail*:

"This morning I have received very late and trustworthy intelligence from M. Kossuth.—Particulars I am not yet at liberty to communicate; however, for the satisfaction of his numerous friends, I may state, that after his betrayal he remained only long enough to save as many of his revolted countrymen from harm as he could, and to prevent any further hopeless insurrection. He then retired into Switzerland, where he was joined by Madame Kossuth three days ago; and it is uncertain whether he may not be obliged to remain for some weeks before he returns to England."

KEY TO BE AVENGED.—Matthew Hale Smith, the New York correspondent of the Boston *Journal*, says: "A madder set of fellows than Daniel E. Sickles' quondam friends are, cannot be conceived. All sorts of things are talked of—mass meeting to compel Dan to resign—a letter, 15,000 strong, hinting the same way—support to the claim of Williamson, who claims that Sickles was not legally elected. What will be done, no one knows. If he keeps open house in Washington next winter, Sickles will have a jolly time of it—Key is not without strong friends. Before the new turn in the affair, it was said that the murder of Key would not be unavenged. If the programme on both sides is carried out, many think that another Washington tragedy will be known.

☞ The editor of the Juniata *Sentinel* notices the demise of a celebrated horse, which had attained the incredible age of forty-one years.—It was the property of Mrs. S. O. Evans, of Delaware township, Juniata county. The horse was formerly in the possession of Gen. Jackson, and was given by him to Gen. George Cramer, of Union, now Snyder county, and by him to his son-in-law, Mr. Evans.

BRAVEN.—The renowned champion of billiards, Michael Phelan, engaged Bird of Philadelphia in a great game of 500 points, carom, in Baltimore, on Monday night. There was extremely fine playing on both sides, but notwithstanding the pressure of continued "bad luck," Mr. Bird was declared the winner at the expiration of forty-seven minutes.

☞ A gentleman of Newberryport, Mass., has something like 100 toads, which he keeps in his garden to destroy insects. He has a house built for them, keeping them as he would chickens, and they are so tame they will come at his call.

MEDICAL PROPERTIES OF THE TOMATO.—Dr. M'Cormick, of Lancaster, has been practicing a series of experiments with the tomato, and has succeeded in extracting its cathartic properties, which he thinks will eventually supercede the use of calomel. The medical properties are thus given: "It is a prompt, eminent, and very safe purgative; in small doses it produces an alternative action upon the hepatic functions similar to calomel; in larger doses it acts as a purgative, with a peculiar tendency to the liver, the functions of which it powerfully stimulates. It produces copious discharges without any griping or other unpleasant effects, and is decidedly a good preparation. Owing to its pleasant taste, it is well calculated for persons who dislike the nauseating taste of purgative medicines, particularly children and delicate women."

Prof. Bennett states that the tomato is one of the most powerful aperients of the liver and other organs, and where calomel is indicated, it is probably one of the most effective and the least harmful remedial agents known to the profession.

A LARGE STORY.—On the 2d of August, Mrs. Timothy Bradley of Trumbull county, O., gave birth to eight children—three boys and five girls. They are all living, and are healthy, but quite small. Mr. B.'s family is increasing fast. He was married six years ago to Eunice Mowry, who weighed 273 pounds on the day of their marriage. She has given birth to two pair of twins, and now eight more, making twelve children in six years. It seems strange, but nevertheless is true, Mrs. B. was a twin of three, her mother and father both being twins, and her grandmother the mother of five pair of twins. Mrs. B. has named her boys after noted and distinguished men: One after the Hon. Joshua R. Giddings, who has given her a splendid gold medal; one after the Rev. Hon. Elijah Chaplin, who gave her a deed of 50 acres of land, and the other after James Johnson, Esq., who gave her a cow. Mr. Bradley says it is profitable to have twins, as the neighbors have clothed the others ever since they were born.—Mr. B. is a poor, industrious laborer, but says he will not part with any of his children while he is able to work.

☞ A few days ago, says the Buffalo *Commercial*, one of our eloquent city divines perpetrated a *bon mot* in his sermon which not a few took, among them a prominent Railroad man. He was preaching upon repentence, "and," said he, "when the tears of repentance are flowing, substantial profits of a regenerated life are expected. Only the tears of a deep penitence can wash away the sins of life; for, I tell you, *the heavy freights must go by water!*"

LOCAL ITEMS.

MILITARY MEETING.—Agreeably to an Order of Brig. Gen'l B. F. Bell, a meeting of military men of this Brigade was held in the Masonic Hall, in Hollidaysburg, on the 26th day of July last. Gen'l Bell having called the meeting to order stated that the object of the order was to consult the wishes of the Brigade as to the time and place of holding an Encampment this fall.

A call being made for the names of delegates the following persons responded.

General Staff—Gen'l B. F. Bell, Capt. E. H. Gardner.

Hollidaysburg Fencibles—Lieut. J. R. M'Farlane.

Washington Artillery—Lieut. Miller, George Bulger, J. Gibboney.

Wayne Guards—Lieut. Ayres, J. Yingling, Corp. Allender.

Tyrone Artillery—Capt. James Bell, Lieut. Burley, Lieut. Bell.

Tyrone Cavalry—Capt. Crowther, Lieut. Henderson, J. H. Burley.

Allegheny Cavalry—Capt. Stitler, Lieut. Harpster, Lieut. Hamilton.

Juniata Rifle Co.—Capt. A. M. Lloyd, Lieut. Horrel, Sergt. Garrett.

Emmet Guards—Capt. Williams, Lieut. Keyes, Lieut. M'Nally.

Altoona Guards, Logan Rifles, and Scott Rifles not being represented.

The Delegates from Tyrone and Martinsburg each invited the Brigade to hold the Encampment at their Boroughs. A vote being taken it was decided that the Encampment be held at Tyrone. The vote afterwards made unanimous.

On motion, it was resolved that said Encampment commence on Monday October 17th, 1859.

Gen'l Bell then ordered that this Brigade shall hold a Military Encampment at Tyrone on Monday October 17th, and stated that any officer, company, or private not attending said Encampment, would be dealt with as the law allows and directs.

The Tyrone Companies, through Capt. Crowther, stated that they, assisted by the citizens of Tyrone, would agree to furnish all the articles necessary for the comfort of the Volunteers, while in Camp, free of expense to the Brigade or Companies.

On motion of Capt. Jas Bell, *Resolved*, that the law forbidding the selling of any refreshments, Lager Beer or spirituous liquors within one mile of the Camp, unless by licensed houses, be strictly enforced.

Brig. Gen'l Bell appointed the following Committees:

Committee of Arrangements—Capt. Crowther, Capt. Bell, Lieut. Burley, Lieut. Eberline, Lieut. Bell.

Committee of Invitation, in connection with Gen. Bell, Capt. Crowther, Capt. James Bell, Lieut. Burley.

On motion, *Resolved*, That these proceedings be published in the different papers of the Brigade. Adjourned, "*Sine die.*"

WARD'S PATENT.—On the 21st of June last, Mr. A. Ward, of this place, General Foreman of the Car Department of the Penn'a R. R., obtained a patent for an Improved Centre Plate and Car Body Bolster, which, on account of its simplicity, ready adaptation to all cars now used by the various railway companies, and its real merits, must secure its adoption by most of the railroad companies in the country. We can not go into a general description of the patent and the advantages it possesses over all others of the kind ever yet invented, but may notice that it is no complicated contrivance, is easily understood by all familiar with car building, and needs only to be seen to be appreciated. It gives strength to the car sills and body, because no tenoning or mortising is required; consequently its application to old or new cars adds to their efficacy. The application of the patent to old cars is very easy and the expense small when compared with the increased amount of service the car will thereby be enabled to perform. It is not only a saving in the wear and tear of the car bodies, but is less destructive to the road bed, and has been demonstrated to be a saving of at least 20 per cent. in locomotive power. This latter quality would alone be sufficient to recommend it, if it had no others. From the numerous letters Mr. W. has received from railway men, acknowledging the merits of his improvement, we think it will be universally adopted by railroad companies everywhere. We should be pleased to see Mr. Ward handsomely rewarded for this evidence of his skill and ingenuity.

N. B. The above improvements have been placed upon about 300 freight and passenger cars on the Penn'a Central and Pittsburgh, Ft. Wayne and Chicago Rail Roads, and have given so much satisfaction that they have been adopted by both roads and ordered to be placed upon all new cars and all that require general repairs.

MORE HOME GENIUS.—We find the following mention made, in the last number of the *Scientific American*, of an invention gotten up by a couple of citizens of this place. We hope the inventors may find their improvement to be just what they intended it should be, its application to locomotives practicable, and be handsomely rewarded for their ingenuity:—

BITUMINOUS COAL-BURNING FIRE-BOX AND FURNACE.—Richard Gill and George W. Grier, of Altoona, Pa., have invented an improvement which relates to a novel, simple and economical means for introducing atmospheric air into a bituminous coal-burning fire-box or furnace, whereby all inflammable gases within the fire-box or furnace evolved by the combustion, or rather, the imperfect combustion of the coal, will be mixed to a point of saturation with the air and at an igniting temperature, so that the greatest quantity of heat may be obtained from a given quantity of fuel. The invention consists in having an air chamber, provided with a series of tubes, placed within the fire-box or furnace, and used in connection with deflectors, whereby the desired end is attained.

IN TOWN.—Mike Phelan, the great New York billiard player was in town on Friday evening last, and visited a couple of our billiard saloons, in one of which he indulged in a social game or two, with a friend, coming out a little ahead each time. Quite a number followed in his wake wherever he went, when it was know who it was.

SUSTAIN YOUR OWN TOWN.—The localizer of the Harrisburg *Telegraph*, gets off the following, the truth of which can not be gainsayed. Being applicable to this locality, we copy it for the benefit of those whom it may suit. The writer says, "It is the policy of the people in every community to sustain their own town by encouraging home industry. We frequently hear some of our citizens say that the next time they go to Philadelphia, or Baltimore, or New York, they intend purchasing certain articles. Sometimes it is a hat or coat, a carriage, household furniture, or something that can be manufactured just as good at home. These persons are generally engaged in a different branch of business in our town, relying upon the public for support. Now, we desire to say a few plain words to all such short sighted tradesmen.—Suppose *your* customers should supply their wants in the larger cities, if there was a possibility of saving a few cents at a risk of being badly cheated with an inferior article? You would soon be obliged to close up and leave the place, would you not? If this suicidal policy is pursued to any extent, it soon settles the fate of any town or community, for its enterprise and prosperity is dependent upon the amount of trade it can sustain within itself, and all that is drawn away from it is like taking the life blood from the human frame—it weakens its energies and consequently impairs its growth. Have you ever seriously thought of this? If you are a merchant, you cannot expect to dispose of your merchandize to your fellow tradesmen unless you deal with them in return. We have always made it an inflexible rule, never to purchase away, that which we could buy at home, and solely upon the dollar and cent principle, knowing that by patronizing home industry and enterprise, we are almost certain of returning the money to our pocket, when otherwise it would go to the benefit of a foreign community. The protecting and sustaining of home industry, is productive of the same results the world over, whether its application is directed to a nation or community.

MR. DUFF'S LECTURES UPON BUSINESS, MERCHANTS COLLEGE, PITTSBURGH.—This gentleman is the well known author of the best, and most comprehensive system of Merchants accounts in use, and also the founder of one of the first Commercial Colleges in the United States, and which is still considered the leading establishment in this branch of education. We have often heard him spoken of as an accomplished and impressive lecturer, but heard him for the first time on Monday last, in an animated and instructive lecture on the ways and means of success in business, and the causes of miscarriage and failure. The subject was handled in such a manner and proved by facts and figures, that we are ready to admit that had we heard this lecture ten years ago, we would be worth one hundred dollars for every one we now are. It is not easy to over estimate the value of such practical and wholesome lectures to Commercial students. If our commercial men were to hear a few of them they would do more to secure their success in business than all the homilies upon Political Economy they have ever read. We are glad to know that the institution, as it deserves to be, is in a highly flourishing condition. It is just the place for a young man to be taught how to manage the most intricate business transactions, and to prepare him for a successful commercial career.

REMEMBER THE BOX.—All who visit the Post Office will observe a small tin box, fastened to the casement of the window, to their right as they enter. It is placed there for the reception of small or large contributions in aid of the Washington Monument, in pursuance of a recommendation on the part of those who have the noble work in charge. The object is two-fold—to enable the association to prosecute the monument to completion as early as possible, and afford all who wish to contribute (however small the sum) an opportunity to do so. The money thus deposited is remitted monthly to the proper person at Washington, and we may readily imagine that the means thus placed in the hands of the association will not be small, (if the contributions are at all liberal) when we consider than there are some 30,000 post offices in the United States. Let all who visit the post office remember the monument fund, and if they in the least honor the memory of Washington they will contribute according to their means. We feel confident that Altoona will make a good report.

LOCK HAVEN AND TYRONE R. R.—Week before last we published an item from the New York *Tribune*, detailing a shrewd financeering game by which the Agents of the above R. R. had been chiseled out of $175,000 of the bonds of the road and that the financeerer could not be found. The following item, from the Philadelphia *Pennsylvanian*, notices the arrest of the swindler:—"In the Superior Court of New York on Tuesday, an order was granted by Judge Clerke, on application of J. D. and T. D. Sherwood, Agents of the Tyrone and Lock Haven Railroad Company, against Allen Schenck, holding the defendant to bail in the sum of $150,000. The plaintiffs' affidavits allege that the defendant obtained possession of $175,000 of the bonds belonging to plaintiffs for $175,000 of the bills of the Southern Bank of Georgia on a representation that said bank was good and solvent. The plaintiffs assert that the bills are worthless and that the bank is insolvent. The defendant was arrested by the Sheriff."

CANING AFFAIR.—We copy the following item from the Pittsburgh *Chronicle* of recent date, presuming that it will possess interest to some of our readers who are acquainted with the parties:—"The Greensburg *Argus* states that Gen. W. A. Stokes administered a caning to Thomas Seabrook, Esq., of that place, the other day. Mr. Seabrook, it is alleged, made use of some very insulting expressions with regard to Mr. S., which he refused to retract, whereupon the latter dealt him several blows on the head with his cane. Some mutual friends interfered, and the combatants having been seperated, the matter dropped. Mr. Seabrook held at one time the position of Resident Engineer on the Central Railroad, but has not been in the employ of the Company for some time, and now, we believe, resides in Cleveland.

BEAUTIFUL WEATHER.—Several days of beautiful weather have succeeded the rain and lightning of last week, gladdening the earth with the glory of summery sunshine and imparting new strength to drooping vegetation. The blue sky above us on beauty is bending, and zephyrs, o'erburdened with the aroma of harvest, are farming to coolness the arrows of heat; while a cloud on the azure afloat, for a moment shields off the fierce shower of fire, the glare and sheen of the day god, and egokes in the morning of August the glorious eve of October.

☞ The officious official at Altaona made but little capital by his impertinent interference with one of our City Fathers. Had he accepted the invitation to visit the delegation at the cars, he might have fared the worst for the handling which he would have met with there. —*Pittsburgh True Press.*

Query—who was the officious official from Altoona? We have a number of official gentlemen in this place, but so far as we know anything about them, they are courteous rather than officious.

LATE HARVESTING.—We were informed, a day or two since, that a farmer living in Dry Gap, some two or three miles above this place, had just commenced cutting his grain, and that part of his crop was not yet ripe enough to cut.—Evidently that Gap must be the place the cold comes from in winter time, and we think it would be a good idea to have it stopped up ere winter sets in again.

TO THOSE WHOM IT MAY CONCERN.—Mr. John Shoemaker wishes us to state that those persons who have been indebted to him for months past, manifesting a disposition not to "fork over," will be allowed ten days after date to settle—after which time their accounts will be placed in the hands of a Justice of the Peace for collection according to law.

Altoona, Aug. 11, 1859.

NOTICE.—The third instalment on the Capital Stock of the Altoona Gas and Water Company will be due and made payable at the Banking House of Wm. M. Lloyd & Co., on or before the 16th day of August, 1859.

B. F. ROSE, *Sec'y.*

"Harvest Home" at Frankstown

MESSRS. EDITORS:—I had the pleasure of attending a "Harvest Home" celebration, held in the neighborhood of Frankstown, on Saturday last. The morning was beautiful, and at an early hour the Juniata Rifles (invited guests,) arrived via the "raging canawl," and marched to the church where they joined the Union Sabbath School scholars and teachers, who were awaiting their arrival. The procession then moved to the grove, a beautiful spot, about half a mile from the church. The children being seated, Rev. Lloyd Knight introduced the exercises of the morning with the singing of a hymn and prayer. Rev. Mr. Taylor being called upon, arose and addressed his auditors in a very impressive and forcible manner. Rev. Dr. Junkin being present addressed the scholars in his usual happy and entertaining style.

Dinner being next in order, the procession again formed and marched to the table, which was bountifully spread with all the luxuries which the season and the good taste of the ladies could supply. After dinner the Company dispersed, and ere long little knots were seen scattered through the woods, some singing, others swinging, and all enjoying themselves exceedingly. Thus passed the afternoon without a single incident to mar the pleasure of any one.

At an early hour the procession again formed and marched to the church where it was dismissed. So ended the first "Harvest Home" celebration which has been held at Frankstown for many years, and may not another harvest pass without the repetition of the "Harvest Home," and may I be there to enjoy it. F.

United Brethren Camp Meeting.

CANOE CREEK, Blair co., Aug. 1, 1859.

Mr. Editor—Please publish a Camp Meeting to be held (by the united Societies of Altoona Station, and Tyrone Circuit of the Church of the United Brethren in Christ,) commencing September 2d, on the ground occupied by the same Societies last year, adjourning the farm of Mr. Samuel Smith, about three miles Northeast of Frankstown.

Ample accommodations will be provided on or near the ground for man or beast. A boarding tent will be kept on the ground at moderate charges to accommodate persons from a distance. No huxtering will be allowed. The sale or traffic of ardent spirits within the bounds prescribed by law will be prohibited, or the law enforced on the violators.

The lovers of the Redeemers cause and all well disposed persons are invited to attend and participate with us in our work of faith and labor of love.

Several able Ministers are expected to be in attendance to dispense the Word of Life.

ROBERT ARMOR,
Preacher in charge of Tyrone Circuit.

For the Tribune.

MESSRS. EDITORS:—The Fifth State Convention of the Junior Sons of America was held in Hollidaysburg on Wednesday and Thursday of last week. A large number of Delegates were in attendance and a considerable amount of important business transacted. On Thursday afternoon the Convention adjourned to meet in Pottsville, Schuylkill County, on the first Wednesday in August, 1860. On Friday morning the weather appeared so unfavorable for the contemplated pic nic that many of the Delegates left in the first train. Those who remained, however, were determined to make a public display, and in the afternoon about 70 turned out in full regalia. In the evening a general picnic was held in their hall, where they had a good time of it,—a thing not to be wondered at when we consider that about 80 of the ladies of Hollidaysburg and Gaysport were present. The order is in a prosperous condition at present and we hope it may long continue to flourish.

9th REASON.

On visiting your numerous mercantile houses in this place, for the purpose of making an advantageous purchase of a considerable amount, I luckily called in the magnificent store of Mr. C. B. SINK. Although to one not acquainted with the town, it would seem a little out of the way, as it is the uppermost store on the main (Virginia) street; it is the uppermost not only in locality but in every respect. I examined all his splendid stock of Goods, and think they can not be rivalled in any inland town in the State. I will not pretend to describe his selections, but invite all to visit his store and it will speak for itself. The eye is filled with all the gaiety of fashion and the substantials of wear that any heart could wish, from the most fastidious young lady or gent to the grave old farmer. Indeed, his store is superb, and his clerk, Mr. VRACE, is beyond a rival in honesty, integrity and affable manners. His very gentlemanly deportment with his kind and accommodating disposition, can never fail to give entire satisfaction to Mr. S. and all who visit his Store. You are welcomed with a smile, and his straightforward mode of dealing at once convinces you that all he says is right. You are always asked the lowest price and you can place implicit confidence on his word.

DALLEY'S MAGICAL PAIN EXTRACTOR, and nothing else, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Sprains, Bites, Poison, Chilblains, Bites, Scrofula, Ulcers, Fever Sores, Felons, Ear Ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its apposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Sold by G. W. Kessler, Altoona; George A. Jacobs, Hollidaysburg; and by all the Druggists and patent medicine dealers throughout the United States and Canadas.

EPILEPSY, OR FALLING FITS.

We believe we can not do our readers a more important service, than by again calling their attention to that most remarkable preparation, discovered by Dr. Seth S. Hance, of Baltimore, Md., which possesses the power of alleviating and curing that horrid visitation of man—Epilepsy, or Falling Fits. In commending this preparation to our readers, we do so with a conviction that we are not degrading our columns to puff a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and eulogistic terms. One great advantage this medicine possesses is the fact, that it can be transported through the mails, thereby affording every one an opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed on by a counterfeit or spurious imitation. Dr. Hance pays the postage on his Pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: One box, $3; two do., $5; twelve do., $24. All orders for the medicine should be addressed to Seth S. Hance, 108 Baltimore street, Baltimore, Md.

HAIR DYE—HAIR DYE—HAIR DYE.

WM. A. BATCHELOR'S HAIR DYE!

The Original and Best in the World!

All others are mere imitations, and should be avoided, if you wish to escape ridicule.

GRAY, RED, or RUSTY HAIR. Dyed instantly to a beautiful and natural Brown or Black, without the least injury to the Hair or Skin.

Fifteen Medals and Diplomas have been awarded to Wm. A. Batchelor since 1839, and over 80,000 applications have been made to the hair of his patrons of his famous Dye.

WM. A. BATCHELOR'S HAIR DYE produces a color not to be distinguished from nature, and is WARRANTED not to injure in the least, however long it may be continued, and the ill effect of Bad Dyes remedied; the Hair invigorated for Life by this Splendid Dye.

Made, sold or applied (in 9 private rooms) at the Wig Factory, 233 Broadway, New York.

Sold by Druggists in Altoona, and by Druggists in all cities and towns of the United States.

M'LANE'S WORM SPECIFIC,
PREPARED BY FLEMING BROS.

☞ The following, from a customer, shows the demand which this great medicine has created wherever it has been introduced:

BLOSSBURG, Tioga Co. Pa., March 30, 1850.

MESSRS. FLEMING BROS.—*Gentlemen*:—In consequence of *the great consumption* of your "Worm Specific" in this place and vicinity, we have entirely exhausted our stock. We should feel obliged by your forwarding, via Corning, N. Y., 20 dozen, with your bill, on the reception of which we will remit you the money.

From the wonderful effects of said "Specific" in this neighborhood, there could be sold annually a large quantity, if to be had, (wholesale and retail) from some local agent. If you would compensate a person for trouble and expense of vending, I think I could make it to your advantage to do so.

Yours, Respectfully, WM. M. MALLORY,
Per W. E. PORTER.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of Pittsburgh, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. *None genuine unless the signature of* FLEMING BROS.

IMPORTANT TO FEMALES—DR CHEESEMAN'S PILLS.—The combination of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, painful menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which always arise from interruption of nature, inducing with certainty periodical regularity. Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. Sent by mail by enclosing $1 to any authorized Agent.

BOERHAVE'S
HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,

And the various affections consequent upon a disordered *STOMACH OR LIVER.*

Such as, Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Bilind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others affected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave: Because of its great success in the most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

CAUTION.—The great popularity of this delightful remedy has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

JACOB SNYDER, TAILOR,
The Hero of One Hundred Fits per Month!

I would respectfully set forth my claim to public attention, as a Fashionable Tailor, as follows:

Because I keep an excellent assortment of Cloths, Cassimeres, Vestings and Trimmings, which, when examined, always please.

Because my work is made up in a manner that takes down the country and gives all my customers a city appearance.

Because I am not inferior as a Cutter to the best to be found anywhere.

Because long experience in my business gives me entire control over it, and I am not dependant upon any one to lift me out of the suds.

Because I am still on the sunny side of forty, and therefore my taste as a Cutter and workman unimpaired.

Call on me, in the corner room of the "Brant House." Give me a trial and you will go away pleased.

DR. COGGSWELL'S NEW MEDICAL SALT.

The following Certificates to the Efficacy of this Medicine refer to Rheumatism, a very common, very painful, very tormenting Disease.

"For the last twelve years I have been more or less troubled with Inflammatory Rheumatism, commencing early in the Spring, and lasting until cold weather set in, when I would be relieved for a while, only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, arms, and hands troubled me most, so much so that I could scarcely walk, and almost always required assistance in dressing. During this time I would try everything I could hear of, in the hope of finding a cure. I also tried several physicians, but nothing seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and finally had to give up and stay in the house, where I was confined about four weeks. This time my feet swelled, and were so sore that I could not stand on them or get on my boots, and my hands swelled to twice their usual size. In fact, I was, to all appearances and belief, totally used up. About this time my parents, who reside in Maine, sent for me to come home. I went and after my arrival I commenced trying another remedy, hoping to be cured, but resulting the same as all others. For weeks I had not been able to dress myself or to raise my hand to my head, and suffering the most excruciating pain all the time.—One day my father came in with a paper in which was advertised Dr. Coggswell's MEDICAL SALT, for Inflammatory Diseases only, and wanted me to read and see what I thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough. He kept urging me, and at last said I could but try it, and if I would write to Dr. C. giving him a description of my disease, he would pay the expense. Of course I could not refuse such an offer and sent for one box. It came in due season, but my faith was not increased, and I laughed at the idea of so small a dose doing me any good, and told my wife that I believed Dr. C. and his Salt both humbugs. However, I commenced using it and the result was perfectly astonishing. I could hardly realize it myself. I slept soundly all night, which I had not done for a long time, and when I awoke in the morning, strange as it may seem, I was entirely free from pain. I had then taken one dose, and bathed freely before going to bed. That morning I felt so well that I hardly knew how to contain myself, and went down stairs and told the folks how well I felt, and from that day to this I have not suffered one moment's pain or had an attack of my once dreaded enemy, Rheumatism. I am perfectly well and hearty, and wherever I have a chance I recommend it. A friend of mine, residing in Brooklyn, is now trying it for a bad case of neuralgic rheumatism, and so far it is working admirably.—This is a long story, but I have told all the facts, which I can bring witnesses to substantiate if necessary; and will again say that in the MEDICAL SALT, a sure cure may be found for all inflammatory diseases, and would urge all who are afflicted to give it a trial. GEO. H. DUNCAN,
No. 117 Wall Street, New York.

When it is remembered that the MEDICAL SALT is as efficacious in all other Inflammatory diseases as in Rheumatism, (see descriptive circulars) it will at once be seen that it is a most valuable remedy. Surely those thus afflicted will find in their own condition and in the above statements, enough to induce them to give the MEDICAL SALT a trial.

Price $1,00; Chronic packages, $2,50.

HOME TESTIMONY.

[From the Lewistown Aurora.]

I have been afflicted for ten years with Chronic Diarrhœa, and have received more benefit from Du Vall's Galvanic Oil than any other medicine I ever used. ALEX. McKEE.
Oliver township, Mifflin county, Pa.

This is to certify that I used Du Vall's Galvanic Oil in my family in some of the diseases for which it is recommended and found to act almost spontaneously. I recommend it to all who suffer from pain. A. M. INGRAM.
Sept. 2, '58—1y. Decatur township, Mifflin co., Pa.

A CARD.—Hear what Mrs. Vaughn of Duncansville says:—I have used the Galvanic Oil prepared by J. D. Stoneroad, Lewistown, Pa., for a very painful disease myself and recommend it to others, and in every case found it to be one of the very best medicines for sore and painful diseases. Relieves all pain in a few minutes. Every family should have it in the house.

NEW AGRICULTURAL SETTLEMENT.—*To all wanting Farms, a rare opportunity in a delightful and healthy climate 25 miles Southeast of Philadelphia, on the Camden and Atlantic Railroad New Jersey.*

An old estate consisting of several thousands of acres of *productive* soil has been divided into Farms of various sizes to *suit the purchaser.* A population of some *Fifteen Hundred,* from various parts of the Middle States and New England have settled there the past year, improved their places, and *raised excellent crops.* The price of the land is at the low sums of from $15 to $20 per acre, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables.* IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement.* The result has been, that within the past year, some *three hundred houses* have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the BEST IN THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a *settled country where every improvement of comfort and civilization is at hand.* He can buy every article he wants at the cheapest price, and sell his produce for the highest. (in the West this is reversed.) He has schools for his children, *divine service,* and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages there presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, *which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business* could be carried on in this place and must be to good advantage, also cotton business, and manufactories of *agricultural implements* or *Founderies for casting small articles.* The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from $100 and upwards.

The *Hammonton Farmer,* a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid. Route to the land, leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7½ A. M., or 4½ P. M. Fare 90 cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties 2nd better stop with Mr. Byrnes, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to Landis & Byrnes, Hammonton P. O., Atlantic Co., New Jersey, or S. B. Coggshall, 302 South Fifth Street, Philadelphia.—Maps and information cheerfully furnished.

THE SECRET INFIRMITIES OF YOUTH AND MATURITY. Just published Gratis, the 25th Thousand.

A few words on the Rational Treatment, without Medicine, of Spermatorrhœa or Loss of Vitality, Nocturnal Emissions, Genital and Nervous Debility, Premature Decay of the System, Impotency and Impediments to marriage generally, by B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed WITHOUT MEDICINE, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELF perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a sealed envelope, by remitting (post paid) two postage stamps to Dr. B. DE LANEY, 88 East 31st Street, New York City.
